President McKinley Knocks the Price of Wheat

We regret that our President should have found it necessary to check the prosperity which recently made a brief appearance on the stage. His influence upon the wheat crops in the Old World had been most beneficial. Under his enlightened Administration the earth had refused to yield its fruit to the planters of wheat in Russia, India and Hungary. His magnificent statecraft had even extended to Ireland, carrying with it the potato rot. The effect of all this was the rise in the price of wheat in this country, and Uncle Sam, who was supposed to be the only national baker who had bread to sell, could get almost any price for a loaf of it. When he put it up to a dollar the people had to have it. Then burst forth the plaudits of the Administration claque, who, having free seats in the Republican theatre were of course expected to applaud in the proper places. The word was passed around to all the writers of financial articles in the dailies that they must tell their readers prosperity had arrived. They were to pay particular attention to the price of wheat, and show that it went up while silver went down. Silver has been eaten nowhere extensively except at the mints, and the mints have been forbidden to eat it. Wheat is eaten by the people who have not been forbidden to grind and eat it. When India produces wheat in abundance as it will next year, its price will again correspond somewhat nearly to the silver price and in the meantime great will be the disparity.

But why this present drop of 10 per cent in the price of wheat? Why should the President thus strike at the farmers of the country? We know that he did it because all his newspaper organs have explained to us that he made it go up to a dollar. And, of course it is this subject to his control, he is responsible for its fall to 90 cents and below. Perhaps Mark Hanna will explain this in one of those rollicking, free and easy, homespun, spontaneous, gushing speeches of his which he is making throughout the state. By all means, let him turn on the light and show why it has pleased President McKinley to lower the price of wheat ten cents on the dollar. Clin. Enquirer.

A few weeks ago the editor was taken with a severe cold that caused him to be in a miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations contained therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results would be putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. An efficacious remedy for lung affections, throat disorders and all bronchial troubles, is found in Dr. Bell's Pine Tar Honey. This medicine has made many marvelous cures and is justly ranked among the most important remedies of the age.

NOT FOR EVERYTHING. But if you have kidney, liver or bladder trouble you will find Swamp-root just the remedy you need. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness? It is easy to tell by getting aside your urine for 24 hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire urinate. Itchy, pain or dull ache in the back, is also convincing proof that the kidney and bladder need doctoring. There is satisfaction in knowing that the great remedy, Dr. Kilmer's Swamp-root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-root give new life and activity to the kidneys—the cause of trouble, but by treating the kidneys it acts as a tonic for the entire constitution. By all means, let him turn on the light and show why it has pleased President McKinley to lower the price of wheat ten cents on the dollar. Clin. Enquirer.

A few weeks ago the editor was taken with a severe cold that caused him to be in a miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations contained therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results would be putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50c sizes for sale by A. M. Hughes.

An efficacious remedy for lung affections, throat disorders and all bronchial troubles, is found in Dr. Bell's Pine Tar Honey. This medicine has made many marvelous cures and is justly ranked among the most important remedies of the age.

NOT FOR EVERYTHING. But if you have kidney, liver or bladder trouble you will find Swamp-root just the remedy you need. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness? It is easy to tell by getting aside your urine for 24 hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire urinate. Itchy, pain or dull ache in the back, is also convincing proof that the kidney and bladder need doctoring. There is satisfaction in knowing that the great remedy, Dr. Kilmer's Swamp-root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-root give new life and activity to the kidneys—the cause of trouble, but by treating the kidneys it acts as a tonic for the entire constitution. If you need a medicine you should have the best. Sold by druggists, price 50 cents and \$1.00 or by mentioning, and sending your address to Dr. Kilmer & Co., Binghamton, N. Y., you may have a sample bottle of this great discovery sent to you free by mail.

A Strong Fortification. Fortify the body against disease by Tutty's Liver Pills, an absolute cure for sick headache, dyspepsia, sour stomach, malaria, constipation, jaundice, biliousness and all kindred troubles.

"The Fly-Wheel of Life" Dr. Tutty's Liver Pills are the fly-wheel of life. I shall ever be grateful for the accident that brought them to my notice. I feel that I have a new lease of life.

President McKinley Knocks the Price of Wheat

We regret that our President should have found it necessary to check the prosperity which recently made a brief appearance on the stage. His influence upon the wheat crops in the Old World had been most beneficial. Under his enlightened Administration the earth had refused to yield its fruit to the planters of wheat in Russia, India and Hungary. His magnificent statecraft had even extended to Ireland, carrying with it the potato rot. The effect of all this was the rise in the price of wheat in this country, and Uncle Sam, who was supposed to be the only national baker who had bread to sell, could get almost any price for a loaf of it. When he put it up to a dollar the people had to have it. Then burst forth the plaudits of the Administration claque, who, having free seats in the Republican theatre were of course expected to applaud in the proper places. The word was passed around to all the writers of financial articles in the dailies that they must tell their readers prosperity had arrived. They were to pay particular attention to the price of wheat, and show that it went up while silver went down. Silver has been eaten nowhere extensively except at the mints, and the mints have been forbidden to eat it. Wheat is eaten by the people who have not been forbidden to grind and eat it. When India produces wheat in abundance as it will next year, its price will again correspond somewhat nearly to the silver price and in the meantime great will be the disparity.

But why this present drop of 10 per cent in the price of wheat? Why should the President thus strike at the farmers of the country? We know that he did it because all his newspaper organs have explained to us that he made it go up to a dollar. And, of course it is this subject to his control, he is responsible for its fall to 90 cents and below. Perhaps Mark Hanna will explain this in one of those rollicking, free and easy, homespun, spontaneous, gushing speeches of his which he is making throughout the state. By all means, let him turn on the light and show why it has pleased President McKinley to lower the price of wheat ten cents on the dollar. Clin. Enquirer.

Robt. Dixon is a first class County Clerk, and we have heard of no one except his opponent who is not very anxious for a change. A considerable amount of experience is required to enable one to perform the duties of this important office. We have a good clerk, let's keep him.

Where can you find a better man than Jns. W. Preston, candidate for Sheriff? Those who know him best say it cannot be done. He has all the necessary experience to take hold of the important office of Sheriff and execute the duties without a hitch. There is not an office in the county that should be better than his.

A SAD ENDING.

Jay A. Frazier Meets an Untimely Death.

The News regrets to chronicle the tragic death of one of the brightest young men in the ranks of Lawrence county's teachers. It was but yesterday, when the young man was in Louis, buoyant in health and spirits, hopeful that in the future he would win a place and name to which his industry and ability justly entitled him. He came to this city and was paid the amount due him as a teacher of the public school at Buchanan. In a day or two he left his home after engaging a successor as teacher, and started westward to try his fortune in another State. Nothing was heard from him until last Saturday morning when a telegram from Willard, Missouri, came to his father, Eli D. Frazier, saying that his son had been killed by a train at the place from which the dispatch came, and asking what should be done with the body. The particulars are meager. At this writing, the body has not been sent to his father, who resides on Blaine creek, a mile or two from Catalpa. It is inferred from the telegram that young Frazier must have found employment as news agent on a train and while thus engaged met his death.

Mr. Frazier was unmarried and about 23 years of age. He was a bright young fellow, one of the best teachers we had. He had no difficulty in obtaining a first-class certificate whenever he was examined, and was always a leader in the county institute. His sudden and awful death is greatly to be deplored, and the News extends a warm sympathy to all his relatives and friends.

LATER—Mr. Frazier's body was shipped from St. Louis, arriving at Buchanan Wednesday evening. Thursday morning it was interred at Cummings' Chapel, with the funeral rites of the (Knights of the Golden Eagle. An immense concourse had assembled to pay a tribute of respect to a well known and popular young man.

BIG SANDY'S IMPORTANCE.

A well written article on river transportation, appearing in a Cincinnati paper of recent date, says that one reason for the high price of poultry is the failure of water transportation on the Big Sandy. It gives facts and figures showing how many dozen eggs and chickens we send to Cincinnati, and how valuable the trade is to us.

BLAINE OIL WELL.

The boring of the well on Blaine is going on with zeal and well directed energy. The spot chosen for the drilling is about half a mile from Robt. Berry's. Mr. Gray, of whom the News spoke in a previous number, is directing the operations with an intelligence born of native ability and wide experience supplemented with theoretical support. Gas or oil is sought for, and if either is there it will be found.

ANOTHER DOSE FOR EVA.

Jim Eva, he of "Red Onion" notoriety, is again in the toils. It will be remembered that a few weeks ago Jim was heavily fined and sent to jail for illegally selling whisky. He was released, only to fall into the hands of Deputy Marshal Tom Salter, who was armed with a warrant for his arrest on a charge of violating the U. S. revenue laws. The officer left with his prisoner on the morning train for Ashland, accompanied by a cloud of witnesses colored and plain. Judge Barr will probably make it impossible for James to visit Louisa for some months.

Although comparatively few know it, one of the most important offices to be filled at the coming election is that of Coroner. Its duties are highly responsible, and none but a first rate man should be chosen. The Democrats present the man most fitted for the place. His name is Abe Ferguson. Honest, sober, intelligent and industrious, he will make an excellent officer. Vote for him.

The voters of Lawrence county should remember that a County Judge has no power to sell the poor house and farm, dispose of the road machinery, make radical changes in regard to roads, etc. Such power rests with the fiscal court, and the Judge has no voice in the matter, except in a case of a vote in the fiscal court over which he presides. When any candidate tells the people that he will do these things if elected, he brands himself as unfit for the office.

The following was sent out from Williamson, Mingo county, recently:

"Henry C. King, of New York, claimant to 500,000 acres of land in Buchanan county, Va., Pike Co. Ky., and Logan, Mingo, McDowell and Wyoming counties, W. Va. has been given a decree of redemption by the Circuit Court.

"This will permit him to dispose of other claimants and to take possession of thousands of acres heretofore forfeited to the State. The decree was entered in the absence of opposing counsel and caused great indignation.

OUR NEIGHBORS.

Jay Draughan has been brought back from Colorado and is now behind the Johnson county jail bars.

The Grand Lodge of Odd Fellows at Owensboro adopted an amendment to the constitution reducing the initiation fees to \$15. W. L. W. was selected as the place for next meeting. Hon. Jno. S. (Daunt) of Carrollton, was elected Grand Master.

James M. Saulsberry, a brakeman on the Lexington division of the C. & O., was run over by the train near Mt. Savage Wednesday morning and instantly killed. He was from Ashland, had a wife and children and was a brother of Dr. Wm. Saulsberry.

William Webb, aged 29, son of a Proling Elder in the M. E. Church was shot and instantly killed at Huntington Friday by Frank Wolcott, son of a wealthy citizen, living in the suburbs. Wolcott was drinking, and Webb's friends claim that not a word had been spoken by either party when the shooting occurred. Wolcott is in jail.

George R. Fish, a brakeman on C. & O. freight No. 95, was probably fatally injured about 8:15 o'clock Friday night, in the yards at Russell.

Fish had just put a tramp off the train and was climbing up the side of a box car when the moving train carried him against a target post in the yards. He was thrown under the wheels and fearfully injured.

Verdict of Manslaughter.

In October 1895 Virgil Staley shot his brother-in-law Lyle Adkins, on Whites Creek, Wayne Co. W. Va. Adkins died three days later. Staley immediately left the State but returned in April 1896 and gave himself up. The State in this trial claimed the killing was premeditated and insisted upon a verdict of first degree murder. The jury brought in a verdict of manslaughter.

The second building and loan association to organize in this state since the Appellate Court was supposed to have hit these institutions a death-blow, filed articles of incorporation with the Secretary of the State Monday. It is the People's Building and Loan Association of Ashland: capital stock, \$100,000; incorporators, D. W. Sleas, Jr., C. C. Martin, J. A. Brewer, F. C. Friend, Jacob Olliger, A. Campbell, T. S. Newman, L. N. Davis and J. J. Yates.

The officials of Huntington made a raid on shanty-boats and various dens recently and some important arrests were made. Among those arrested was found Richard Gibson, who, during the latter part of last May, murdered Daniel Webster in Franklin county Va. John Anderson, who waylaid a lumberman at Ashland, Ky., and secured \$1,200 in money, was also arrested and \$400 of the money was found on his person. He was taken to Ky. and Gibson is in jail awaiting Virginia authorities. Eliza Westling, wanted for highway robbery, was also captured, as was a negro named Lewis, who is wanted at Nolan, Mingo county, for robbery. A man named Blankenship, known as "Dyke Bill," wanted in Cincinnati for murder, surrendered to the officials and was returned to Cincinnati.

JOHN H. THOMPSON.

Fellow Citizens of Lawrence County:

By the solicitations of both Democrats and Republicans, I am a candidate for County Judge of Lawrence county. I am 43 years old. My father died when I was in my 7th year, and I have lived thus far through life. I have my first old arithmetical book that I commenced to study, and there is not a missing leaf out of it. I worked it through three times before I got higher arithmetical and algebra. I also have my first old copy-book yet. I used to teach school, and never taught with any other certificate than a first-class. Was deputy sheriff five or six years, and collected money and paid it over, and no man ever lost a five cents through me. I was Commissioner three years, nominated by acclamation and elected without spending a cent and I think I went into the office with clean hands and tried to come out the same way. The books can be opened on me in the Clerk's office and see them myself. I received for my services, while in office, some other candidates make. I cannot promise you that I will sell the poor house property and turn the poor, unfortunate people out as gypsies, to wander up and down the highways of this county and tempt wherever night overtakes them, for the Good Book says, "the rich ye may have but the poor ye will have with ye always?" and I cannot promise to pay the road-owners, and I cannot promise to build a road up every branch and around every hill in this county.

Again, I cannot promise to sue the Federal Government for the use of the courthouse, by the soldiers, during the war.

I am not a candidate for a law-making office, but for an office in which the law is already made and I propose to discharge the duties imposed by that law.

Now, I want to make one promise to the people of Lawrence county. It is a promise I have made over and over I have been and to all with whom I conversed. It is this: If I should be elected County Judge of Lawrence county, I will discharge the duties of the office, according to law and to the very best of my judgment and ability. I promise to stand by every taxpayer of the county, regardless of his financial standing.

I understand that it has been said that if John H. Thompson is elected County Judge the money would all be spent in the lower end of the county. Now any man with brains enough to vote, knows the County Judge does not have the spending of the money of the county.

But, speaking of location, I do not live directly in the lower end of the county. Already we have had several County Judges from the vicinity of Russesville.

I most sincerely solicit the vote and support of every man in Lawrence county and I promise, if I am elected to so regulate my official conduct, that no taxpayer will have cause to grumble.

Very Respectfully,
JOHN H. THOMPSON.

Millinery.

So much has been said of this Store Millinery that but little remains to be told.

Did it ever occur to you why our Millinery is so much cheaper than at other places?

Simple Enough!

We don't start in for only one season, as some of our competitors; expecting to make it all in one season and then retire. We have been in the business for years, and expect to remain for a while longer. So you see we are satisfied with a little profit this season and a little profit next. We don't want it all at one time. We show more Hats, Ribbons and Trimmings of all kinds—a greater variety of styles, and when we sell you we charge for the material in only and the work on it—not one penny for the Style. OUR MILLINERY IS ALL IN. Come and see it, we can save you money.
